Classical: 8 quadrant products
A
split into
A11..22
B
split into
B11..22
8 products:
A11B11, A11B12, ... , A22B22
C: sum pairs
of products per
quadrant
Strassen: 7 products (M1...M7)
A
split into
A11..22
B
split into
B11..22
7 recursive products, each a
fixed +/− combination of quadrants:
M1 = (A11+A22)(B11+B22), ..., M7
C: combine M1..M7
via +/− only
(one fewer multiply)
